

Icknield Community College GCSE Results 2019

Students at Icknield Community College have, once again, achieved exam results of which they can be rightly proud.

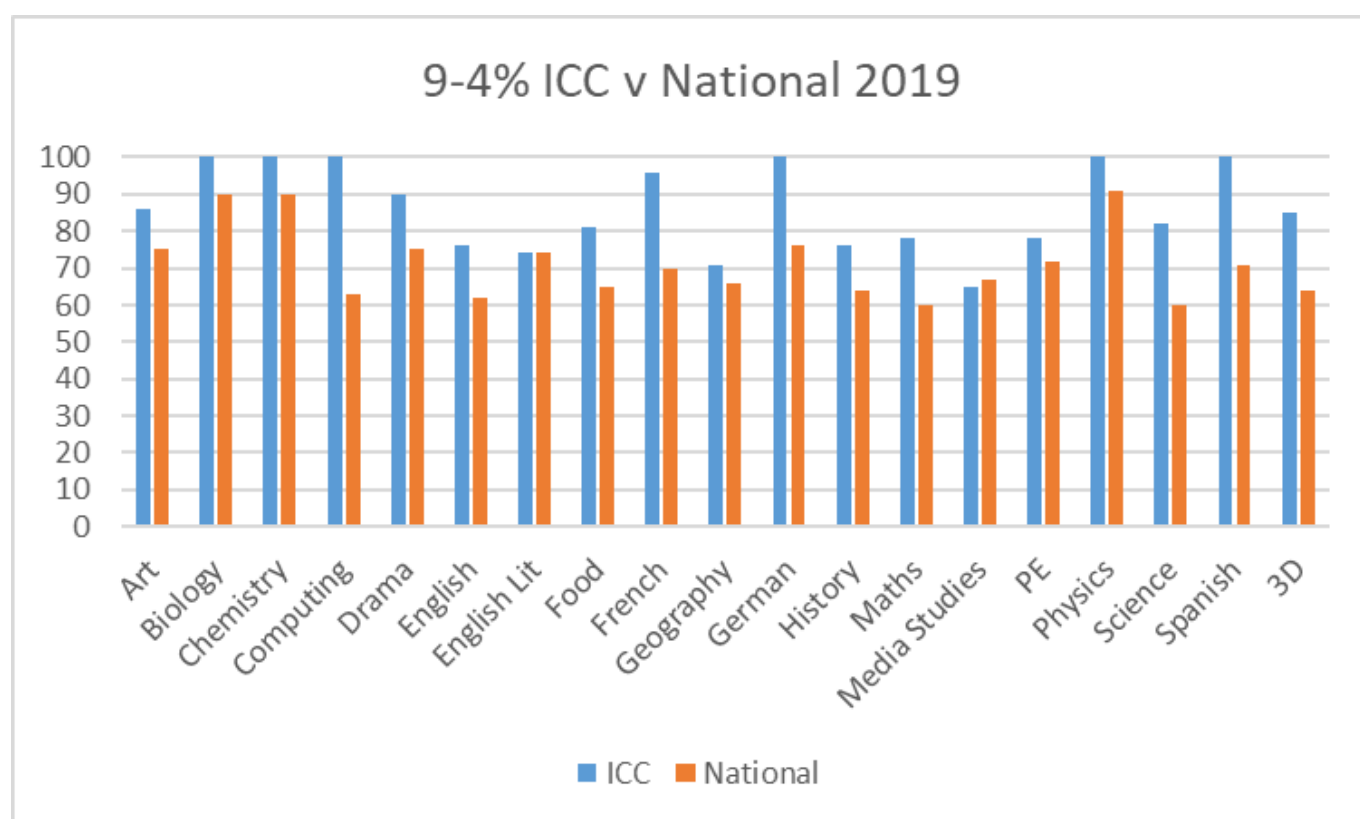

- 81% of students achieved at least a standard pass in English
- 78% achieved at least standard pass in Maths.
- 78% of students achieved at least 5 standard passes overall.
- 73% of students achieved 5 standard passes including Maths and English.

All of the indicators above were higher, in some cases significantly, than last year.

“I am particularly pleased that our students have performed so well across such a wide range of GCSE subjects this year” said Mat Hunter, Headteacher. “This is testament not only to the hard work of so many students but also to the high quality of teaching in all areas of the school.”

All bar one subject all achieved at least a 70% pass rate with many much higher, up to and including 100%:

All subject areas, bar one, scored higher than national as can be seen in the chart below:

More information about exam results will be shared via the school newsletter as and when it becomes available.
