

Dear Year 6,

When I was in year 6 I was really nervous because I was worried about losing my way around the school and being separated from my friends however, when you get to Ickneild there is nothing to worry about because everyone is here to help you and you will get to be with your friends for most of the time. If you are worried about getting lots of homework you don't get as much as you think. The school I came from was Chalgrove Primary school and I love sports and baking. My favourite lessons are PE because you get to play lots of different sports and I also love Food Tech because its really fun you get to make lots of different things.

Good luck Phoebe current Year 7 pupil
